Welcome!

Arsen Đurić

Dear friends,

Over the last few years Zlatibor County has managed to position itself as one of the leading tourism destinations not only in our country but in the whole Balkan region as well. Congress tourism plays one of the most important roles in the County's tourism destination development, supported by the continued efforts of the congress tourism, hotel, and travel industry representatives.

The requisite congress infrastructure already exists and it is being constantly upgraded and improved. The increasing number of new and renovated hotels as well as conference facilities meet the highest standards of quality. However, Zlatibor as a destination offers much more – authentic restaurants serving exquisite local specialties, unique ethno villages as guardians of folk traditions, pristine nature providing you with clean and healthy air, and plenty of opportunities to spend quality time. Naturally, it goes without saying that we offer high value services and a perfect value for your money, hoping that those important factors will help you choose Zlatibor County as your destination.

In closing, I would like to say that all of you who decided to organize business meetings, seminars, conferences and corporate trips in our region made an excellent choice. I am sure you will be satisfied and will find local people to be great hosts and even greater friends.

Darko Đurović
Director

Tourist Organization of Zlatibor

Dear colleagues and visitors,

Welcome to Zlatibor, a mountain with numerous facilities offering plenty of opportunities. Zlatibor will provide unforgettable events and unique experience for all congress organizers, meeting participants and individual tourists and visitors.

I can assure you that Zlatibor is an ideal place to organize meetings and congresses. The hotels and their meeting facilities of all categories have been hosting events and meetings of various associations and companies for years. The seminar and meeting participants spend their time in the healthy mountain environment breathing crisp, clean air that clears their mind and inspires everyone in the hard working sessions to make right decisions and get the best results. Companies can experience various team building programs with imagination being the only limit in their creating. The Šargan Eight, rafting, paragliding, hiking trails and other outdoor activities and facilities are all at your disposal. Get the most out of your stay – visit Sirogojno, Mećavnik, numerous monasteries, learn about the Zlatibor region tradition, local cuisine and old crafts.

We are sure you will be delighted with everything Zlatibor has to offer. Tourist Organization of Zlatibor has established the Congress Department that will help you make the right choice to meet your needs. Zlatibor is well known for good cooperation among business entities involved in tourism, hotel and conference industry. Our task is to secure seamless communication so that you can communicate with us, as the destination representatives, in the clearest and simplest way possible.

We look forward to welcoming you to Zlatibor.

About Us

The Tourist Organization of Zlatibor was founded almost three decades ago to successfully present, promote and help development of tourism in the region.

Our cooperation wih all the tourism stakeholders implies daily communication with hotels, agencies, tour operators, restaurants, attractions… We are driven by a single goal: to make your stay at Zlatibor pleasant and unforgettable. Therefore, the Tourist Organization of Zlatibor will address any questions you might have, hear all views and all suggestions and help solve your dilemmas.

Zlatibor County is situated in the very heart of the Balkans and has already become a recognized meeting point for various organizations, associations and corporate clients, and for years now, it has been one of the most popular tourist places and relaxing holiday destinations.

Our Services:

- Information on hotels and accommodation facilities
- Information on conference venues
- Information on service providers (transport, catering, excursions…)
- Printed catalogue for congress and incentive travel organizers
- Information on tourist attractions
- Optional programs – sightseeing tours and excursions
- Information on restaurants and banquet facilities
- Information on entertainment, shopping and culture options
- Press Information
- Visitor Information Centre

In order to build close and strong professional relations with all the clients, the Tourist Organization of Zlatibor has established the Congress Department. The Congress Department has a task to secure seamless communication between clients and service providers throughout the destination. Our goal is to help you produce and run a flawlessly organized meeting at Zlatibor with participants, lecturers, sponsors and organizers expressing high level of satisfaction.

We will do our best to help and assist you in the planning and organization of any kind of MICE events you may wish to have at Zlatibor. Let us show you why Zlatibor is more than just a mountain.

Златибор
туристичка организација

Why is Zlatibor more than just a mountain?

Crisp air to refresh your body and spirit

When you get to Zlatibor, take in the scenery and fill your lungs with healthy, clean, fresh air that refreshes your body and revives your soul, makes you eager to work, socialize and enjoy life to the fullest. An ideal geographical location and the combination of different climatic zones make this region a unique air spa. Zlatibor will give you a good night's sleep and relaxing moments you've been waiting for. It is the best place to escape the city noise and crowd and to take a break from stressful days at the office.

Almost all the activities and lecture breaks can take place outdoors, so the fresh mountain air represents an added value for all meeting participants. The inspiring Zlatibor environment guarantees good results, successful conferences and satisfied participants, who are getting back to their daily routine feeling rested and rejuvenated.

Nourishing food to regain your energy

Local specialties that make this region a unique oasis of tasty flavours represent an unforgetable experience for the majority of Zlatibor visitors. Pristine nature and traditional ways of food preparation provide the most delicious organic food and dishes that Serbia is famous for.

Make sure to visit national cuisine restaurants and plunge into gastronomic ecstasy. You should start by ordering local Užice brandy (rakija) and Zlatibor kaymak, cheese, buckwheat pie and homemade prosciutto. Spit roasted spring lamb is inevitably served as the main course. Its taste and quality are indications whether or not a restaurant is good. Try to learn how to make the famous Užice flat bread bun. We recommend you have it for breakfast since it will give you stregth and make you ready for numerous outdoor activities in the Zlatibor fresh air.

Nourishing food and crisp mountain air represent a winning combination that replenishes your energy and encourages your body to take part in numerous activities and have the adrenaline rush experiences.

A variety of activities to burn calories

Zlatibor offers plenty of opportunities for activity holidays and various team building programs that will satisfy not only those who are eager to spend some relaxing time walking but also the adrenaline junkies. You will find a wide variety of options for trail walking that is the best morning activity you can get. If you are ready for greater challenges, take a walk to Tornik. The Rivers Uvac and Drina rafting represents an ideal employee motivation program. Jeep tours through the rugged terrain, downhill mountain biking, paragliding, tubing and other similar activities are intended for younger guests who want to run off some of their excess energy. If you want to spend some quiet time, enjoy a ride on the Šargan Eight train or take a boat cruise along the River Uvac.

An "ethno corner" where we can learn more about ourselves

In a pleasant ambience of ethno villages and unique open air museums we will find out how people used to live in the past. We will rediscover old, almost forgotten crafts and traditional food recipes. Get involved by taking part in these activities and you will understand a specific mentality of people from this region even better. Master the old crafts skills. Find out how pottery is made in the village of Zlakusa, or how prosciutto is made in Mačkat, or even how the best kaymak is made. You can collect herbs and forest fruits on the mountain paths of health. Taking wildflower honey or pine honey as first thing in the morning will easily become a part of your daily routine.

Everything you try in the Zlatibor region is either fresh, strong, delicious, joyful or full of energy and everything contains the most important ingredient a contemporary person could ask for. Health.

How to get to Zlatibor?

Location

Zlatibor is situated in the central part of Western Serbia, in the area that connects Serbia with Montenegro and Bosnia and Herzegovina. It is 230 km away from Belgrade, 240 km away from Podgorica and 180 km away from Sarajevo, so it is an ideal meeting point for business people from the whole region.

By Plane

From the International Belgrade Airport it will take you 3.5 hours to get to Zlatibor via highway leading from Belgrade to Montenegro, and the same amount of time is needed from Podgorica Airport. Sarajevo Airport is only 2 hours drive away.

By Car

The best routes to get to Zlatibor by car are following:

- **Belgrade - Zlatibor** via Požega, Užice and Čajetina (230 km);
- **Podgorica - Zlatibor** via Kolašin, Bijelo Polje and Prijepolje (240 km);
- **Sarajevo - Zlatibor** via Višegrad (180 km)

By Train

Regular lines connect the town of Užice with the main administrative centres via Belgrade – Bar railway. Local buses and taxis will take you from Užice to all the major Zlatibor tourist attractions in only 30 minutes.

nesobajo@hotmail.com

Turn off the highway towards the Mačkat village and you will get to the beautiful restaurant "Bajo" building, owned by one of the famous family Šopalović successors. In lovely interior with furniture made of wood and wrought iron you will try delicious specialties. There are rooms in the restaurant building with 16 beds available and you can take horseback riding lessons in the backyard. However, what this restaurant is really famous for is fantastic roast lamb. People who know good roast meat will recommend you yet another restaurant from the Šopalović „Bajo" family situated in the village centre.

Zlatibor village of Ljubiš and its natural beauties have been illustrated in the poems of Ljubivoje Ršumović, a famous poet born in this village. One of the attractions you can find here is the Pećinar restaurant. Six generations of the Pećinar family are in the catering service business. You will enjoy a beautiful ambience where each painting and each piece of furniture keeps the memory of the tradition and the ancestors who have been building a reputation for decades. Try hot cornbread, Zlatibor cheese, kaymak and prosciutto. The best main course is veal or lamb roast baked under the iron pan. Trout fillet is a delicacy here. It is made from trout grown in the backyard fish pond.

Tourist agency SAN-Tours is specialized in organizing individual and business clients arrangements in the area of Western Serbia. This agency offers one day to five day tours that are carefully prepared and adapted to the needs of small tourist groups:

- A sprong of spirituality – holy waters of the Lim River
- Adrenaline program – the River Lim rafting
- Kamena gora, Sopotnica

attractions

attractions

Western Serbia is full of nature's generous gifts – forested mountains, winding rivers, crystal clear lakes and many other miracles of nature. People have settled among them – special people with spirit, sharp minds and good temper who are called Era. We would like you to see this region as a land filled with treasures with four marvelous mountains, four beautiful rivers and four prowd towns overlooking the beautiful landscape.

Culture

Zlatibor is an ideal stage for organizing cultural events throughout the year. Concerts, festivals, exhibitions and art colonies represent a unique chance to get to know the rich tradition of the Zlatibor region.

While you are here, why don't you take the opportunity to learn some of the following skills and activities?

- the skills to knit clothing (sweaters, scarves, winter hats…) featuring local motifs,
- old, almost forgotten crafts (pottery, smithery, carpentry, tailoring, weaving…),
- traditional dance Užice kolo and other traditional dances from this region,
- the skill of making traditional balms and teas and collecting ingredients you need to use.

Entertainment

Zlatibor is well known as a place for good entertainment. Depending on your preferences and your taste in music, we are recommending the following places:

If you want to spend a night out having fun in a club located in the tourist complex centre, then the best places to go are: "Irish pub", "Vendome", "Dancing bar", "Apolo" and "Sunset". However, if you want to be fresh and ready for the activities waiting for you the next day, we suggest a visit to: "Zlatiborska konoba", "Bolero", "Burence", "Adadjo" and "Fama".

If you decide to spend your evening in the town of Užice, the ideal places to spend your time at are: "Gradska kafana", "Zicer", "Absolute", "MakaMara" and "Kafe Poslastičarnica", all of them being located at the central town square. There, you can have a delicious cake or a drink that will refresh you and give you the energy to continue your night out. If you like club sound we suggest you go to some popular Užice disco clubs -"Garaža", "Skala" or "Kontra". Rock music lovers can continue their night out in the "Revolt" club in the heart of the town. If you'd rather spend a quiet night out, you can go to one of the following restaurants: "Vagon", "Palermo", "Tabana", "Moja reka" and "Naša kuća" and enjoy a lovely evening in great atmosphere.

Shopping

You should not leave Zlatibor without buying a souvenir typical for this region. You can find almost everything you need at the Zlatibor open market where you can always have a small chat with kind and talkative local craftsmen. They offer various products characteristic for the Zlatibor region, so it is a kind of an one stop shop where you can find cheese, kaymak, prosciutto, brandy (rakija), honey and herbs for teas, but also knitted sweaters, socks, mittens or cooperage products and other numerous souvenirs.

If you visit surrounding villages, we recommend you buy products there depending on what craft the village is famous for (cured meat products – Mačkat, wool sweaters – Sirogojno, wood products – Rožanstvo, pottery - Zlakusa). If you want to buy some popular local or international brands you can do it in numerous shops in the centre of Zlatibor or in Užice main street.

Events

JANUARY

Mid-January

Prosciutto Festival (Pršutijada)

The Zlatibor Region Cured Meat Products Fair
The village os Mačkat, Zlatibor

Užice, **www.teatar.rs/festival**

Kustendorf

The Drina regatta

Diving from the old railway bridge

Traditional Trumpet Festival

Kraljeve vode

Zlatibor is a unique mix of nature, history and tradition that makes it an ideal place for rest and relaxation. Zlatibor started its tourist development back in the 1893, when the Serbian King Aleksandar Obrenović built a drinking fountain. Ever since then the central tourism area of Zlatibor has been called Kraljeve vode (King's Waters). Decorated with a wonderful lake, surrounded by coniferous trees, numerous hotels, villas and restaurants, it represents a gathering place and a starting point for all further explorations. While you are taking a boat ride on the lake or having the first morning coffee in the sunny local restaurant patios you will be able to feel the incredible nature scents. You can pick any hiking trail and go for a walk enjoying the crisp mountain air that will refresh your body and revive your soul. When you get back from your walk, you could visit a restaurant serving Zlatibor specialties to compensate for burned calories. Cafes and bars offering entertainment till late are great places to spend your evening.

Tornik - Ski Centre

Zlatibor offers numerous activities throughout the year but it is best known as a winter ski centre. Ski centre Tornik is located near the Zlatibor tourist complex centre and has four well-arranged ski runs (Zmajevac, Tornik, Čigota and Ribnica) with total length of 5 km. They are equipped with the artificial snowing system and a six-seater chairlift with a capacity of 3000 skiiers per hour. Two ski lifts, anchor type, are also at your disposal.
You can choose a trail depending on your skills and the mood you are in and enjoy the winter adventure. The terrain is perfect for biathlon and Nordic skiing, and if you want to organize a contest along with your friends and colleagues, you can rent snowboards and motor sledges. In summer months, take a cable car to the mountain peak and enjoy the panoramic view of mountain ranges. If you want to improve your physical fitness, take a long walk back to the tourist complex.

Šargan Eight

Šargan Eight is a narrow gauge railroad, which makes an extraordinary loop in the shape of number eight on the route from Mokra Gora to Šargan Vitasi. Once the railway was built, King Aleksandar Karadjordjević left his signature on the Šargan tunnel as a sign of hard work appreciation. The railroad is a miracle of human ingenuity since the altitude difference between Mokra Gora and Šargan was surmounted skillfully by this world unique eight with the system of tunnels and bridges.
Get on the Nostalgija train and enjoy the fairy tale ride across wonderful areas of Mokra Gora. Find out what prizes were promised to planners who were entrusted to construct this extraordinary technical solution. Find out what famous prophets – the Tarabić family from the nearby village of Kremna foresaw when they said: "Many years will pass before people remember the iron road and this road will be rebuilt all over again. However, people will not travel down this road to Višegrad for business or because they need to, but for fun, careless rest and enjoyment."

Monasteries

If you want to understand history and tradition of this region you should visit monasteries and churches, the witnesses to the centuries past. The most significant monastery is Mileševa, the endowment of King Stefan Vladislav Nemanjić from XIII century, where the remains of St. Sava were interred. It is famous for medieval fresco painting that is ranked as the world's top cultural heritage. Take a good look at the fresco White Angel, a masterpiece that will awake your power of faith and spirituality.
Visit Zlatibor wooden churches, small wooden buildings that you can nowadays see in just three villages - Dobroselica, Jablanica and Kućani. They will show you a strong will of our ancestors to preserve their culture and tradition. The Uvac monastery is the Nemanjićs endowment from XIII-XIV centuries, and if you take the road to Mount Tara make sure to visit Rača monastery. Ask the priests to tell you what role the monastery had in preserving the Miroslav's Gospel, most significant and precious document of Serbian cultural heritage.

Sirogojno

The entire Zlatibor region is a treasure chest full of customs and traditions preserved from fading into oblivion but the village of Sirogojno holds a special place since the unique Open air Museum Old Village is situated there. It was built in order to preserve the memory of traditional architecture, crafts, customs and the way of life in the mountain regions of Serbia. Take part in programs of reconstructing national customs and rituals and try to understand the meaning and depth of folk beliefs. Take tools and learn some of the old crafts. Become a potter or a blacksmith or even a cooper for there is a saying here: "The most important thing to learn is crafts". Every August the museum organises the "World of Music" Festival and the "The Old Crafts and Traditional Occupations Fair". The village of Sirogojno has become famous in the entire world for its unique, knitted wool sweaters hand made by the women of this village who were inspired by the nature colours when knitting the sweater patterns. If you buy a sweater in Sirogojno, you will certainly never be cold in winter months again.

Mokra Gora

Mokra Gora is the Nature Park including the areas of exceptional value. Hills and gorges covered with oak and black pine forests, intersected by streams, springs and wells represent a habitat of numerous endemic species of flora and fauna. Alpine cornflower, Western Capercaillie and brown bear are of a special value here, but you can also see an otter, wolf, chamois, Mediterranean Barbel and trout.
The famous film director Emir Kusturica built a unique town made of wood – Wooden Town (Drvengrad) on the Mećavnik hill. Come to the Kustendorf Festival in mid-January when big film stars known all around the world come here to support young film makers. Exhibitions, schools and workshops are open here throughout the year thus making Mokra Gora an important centre of culture and education. If you want to learn new things you can go to the bookshop or to the cinema, while a sports hall, a swimming pool, a gym and a sauna are at your disposal if you just want to relax. You can also enjoy the winter sports on four well-arranged ski runs at the nearby Iver ski resort.

Caves

Go down the steep limestone cliff to the entrance of Stopića cave with the underground stream called Trnavski Creek flowing through it. Explore the Light Hall first and then proceed down the Dark Hall to finally reach the Great Hall with Pools. Even though the cave holds fascinating walls and ceiling cave ornaments, it is the sinter pools that have the greatest value. A large number of pools create a wall with water overflowing the pools thus creating an outstanding sight.
Potpeć cave was cut out by underground streams. Leaving the underground, these streams come to surface in front of the cave and the springs in front of it thus forming the Petnica River.
Go down 700 steep steps and explore two main levels of cave passages – the Upper Cave where once the underground stream used to flow and the Lower cave that was peopled once. Enjoy the rich cave ornaments and ask your guides about objects proving people were living here since the Neolithic. Leave small coins "for luck" in the embrasure in the main hall and contemplate what you have just seen in the excellent fish restaurant located at the very cave entrance.

Ethno Villages

Visit to Zlatibor will be complete only if you combine rest and relaxation with good food in ethno ambience, where you will learn new things about the tradition of our people. The best places to experience this combination are ethno villages and households.
Visit Lazarevi konaci in the village of Kačer and enjoy the peaceful surroundings. If you want to, you can learn how to make souvenirs of wood and wrought iron there. At Boškova voda in the village of Ljubiš you have a nicely arranged swimming spot at your disposal as well as specialties roast baked under the iron pan in a local restaurant. The households Stankovića avlija and Dacovića konaci are located in the same village. There you can stay in one of the authentic village houses. In the ethno-eco village Vraneša on Mount Zlatar you can find good accommodation, restaurants and the wellness centre with the indoor pool open year-round. You can also go on local tours in order to see some of the surrounding attractions.

Užice under Mount Zlatibor and upon the Djetinja River

Užice is the largest town and a small capital of the region that each Era believes to be the centre of the world. Among tall mountains and clear rivers there are people with a specific nature, people who believe that you can make jokes in any situation. You will immediately recognize a vivid and cheerful spirit of these people and when you get the chance to know them better you will learn that their hospitality doesn't have limits.

Let them lead the way up to the walls of the medieval fortress Old Town; walk along the river Djetinja bank to the hydroelectric plant built based on Tesla's principles of alternating current back in 1900. It is the first of the kind in the Balkans and the second in the world preceded only by the Niagara plant that started working 5 years earlier. Visit the Museum of Technical Devices within the the building of the plant and then go for a slow walk up to the Old Town perched on a rocky cliff top above Užice. You will realize the place is rich in history and you will also see young couples in love who often visit the lookout.

From the foot of the Old Town you will continue your walk along the Djetinja River bank and come to the old railway bridge overlooking the town river beach. Diving from the bridge is organized every summer and numerous skilled and brave contestants can take your breath away.

Make sure not to miss the Ethnographic Museum – Jokanovića kuća (also known as Pecara) which also represents a monument of Oriental Balkan architecture of the 19th century. While walking around the town you will see numerous fountains built by local guilds. Back in the 19th century Užice traders and guilds were building fountains as their endowments. Today, they are witnesses of the town's fast development. When you get tired, take a break and have a famous Užice flat bread bun that will give you the energy to continue exploring the beautiful spots of the town.

Divine Tara and the Emerald Drina Invite you on a Heavenly Journey

The road to Višegrad will take you to the Nature Park Mokra Gora where the famous film director Emir Kusturica built the ethno village Wooden Town (Drvengrad). Stay here for a day and try natural food and bio-fruit juices that will give you strength needed to continue the journey. Get on the famous train Nostalgija that will take you on the journey through magnificent areas between Šargan and Mokra Gora on the old narrow gauge railroad making a loop in the shape of number 8. You will go through the village of Kremna, known for its prophet family the Tarabićs who foresaw important historical events.

And then you get to Mount Tara, the wavy mountain beauty that Dr Aetkin Clark, the Director of European Foundation for protection of nature and National Parks once described in a single sentence: "This is my vision of Heaven!". This area was declared a National Park in order for diversity of flora and fauna of this region to be protected, the most significant species being Pančić spruce, the empress of all the European endemic plant species.

Your next stop is Kaludjerske Bare, the oasis of health where you can find the Omorika Hotel and other accommodation capacities good for rest and relaxation. Pay a visit to the Rača monastery, the endowment of King Dragutin, a place that has been a guard of the national culture and treasure for centuries, a place that preserved the Miroslav's Gospel, the oldest written Serbian monument in difficult times of our history.

The Drina River – emerald green, deceptively mild, swift and winding. The river that defies history with its power and will. Take a break and have a coffee at the restaurant patio at the place where the shortest river Vrelo flows into the Drina. There is Perućac lake in the vicinity, with its crystal clear water full of different types of fish representing a true paradise for fishermen. You can rest on the well-arranged beach, take a boat ride, and enjoy the river canyon that will take you all the way to Višegrad and the famous bridge described in the Nobel prize winning novel The Bridge On The Drina. Mount Tara and the River Drina meet at Bajina Bašta, a small picturesque town nestled between those natural beauties. The kind hosts will wish you "All the best!" inviting you to their home so that you can try fresh-baked bread and brandy (rakija).

Under a Sharp Eye of the Griffon Vulture

From Mount Zlatibor we are going down to the River Uvac canyon, recognizable for its ensnared meanders which create a magical natural surroundings. The Uvac Special Nature Reserve is home to more than a hundred species of animals (golden eagle, otter, eagle owl, kingfisher, etc.), and the Reserve's greatest attraction is "the king of the sky, His Majesty" Griffon Vulture.

Go to the Uvac lake dam and get on a catamaran. Go for a ride on the lake with ensnared meanders of the Uvac River flowing into it. You will be surrounded by the unbelievable intact nature between the cliffs, rocks and karst reliefs on your way to the entrance to the Ice cave where you will see the extraordinary speleological treasure of the Uvac cave system. You will pass the feeding site and see griffon vultures flying above it. They are fantastic birds with wing span of up to three metres, and you can watch them from the special lookouts. You can also enjoy fishing on Zlatar, Uvac and Radoinjsko lakes.

Continue exploring the area by taking a walk on the golden mountain of Zlatar, which is declared the air spa for its special climatic conditions. Walk across the meadows full of medicinal, fragrant herbs, surrounded by spruce and birch trees. Join the organic buckwheat harvest or start collecting forest fruits and tea herbs. Visit the ethno village Štitkovo with wooden houses more than one hundred years old, or pay a visit to the ethno-eco village Vraneša. Meet local hosts and try famous Zlatar cheese, buckwheat pie and forest fruit sweet-preserve.

You will get to Nova Varoš built by Skender Pasha in the middle of the 16th century. He was traveling around the area and was impressed by the nature so he decided to build a town here. Take a cable car to get a panoramic view of the cultural monuments of the town – the mosque and the church that represent the best example of the religious tolerance in the town.

From Ivanjica and the Moravica River to Golija and Studenica

Only one hour drive away from Zlatibor, on the banks of the river Moravica there is the town of Ivanjica. It is a picturesque place surrounded with mountain ranges and well known for raspberries, potatoes and healing springs. The road will take you to the unique stone arch bridge built more than a century ago. You can stay at an excellent Park Best Western hotel with the highest quality standards of accommodation and service. Right behind the hotel, on the Moravica river bank there is a hydroelectric power plant more than a 100 years old with beautiful waterfalls. It represents the symbol of the town and is a part of the industrial heritage. There is the terrace of the restaurant above the waterfalls where you can take a break having a cup of coffee or lunch while enjoying the view of the unique mixture of natural beauty and human ingenuity. There is a pearl of this part of Serbia in the vicinity – Mount Golija covered with dense forests. It is the Nature Park preserving forest eco systems, various areas and landscapes, endemic species and biological diversity. The Golija – Studenica area was declared the first UNESCO – MAB registered biosphere reserve in Serbia. Visit the lakes Tičar and Okruglica, the waterfall Izubri and areas that represent a habitat for more than a hundred medicinal herbs. If you are an adventurer, visit Hadži-Prodanova cave rich in ornaments, halls and hallways where prehistoric objects were found. If you love cultutral and historic heritage, visit the monasteries Pridvorica and Kovilje. Make sure to visit Studenica monastery that was included on the list of World Heritage Sites by UNESCO. Find out the history of the monastery that was founded in 1190 by Stefan Nemanja whose relics are still in the monastery. It is surrounded by a circular wall that encompasses four churches containing valuable pictures from the 13th and 14th centuries. Under guardianship of St. Sava, Studenica became the spiritual, cultural and political centre of medieval Serbia.
